SAFETY INFORMATION

IMPORTANT: READ ALL SAFETY INFORMATION AND INSTALLATION INSTRUCTIONS BEFORE INSTALLING OR SERVICING THIS PRODUCT. SAVE THIS MANUAL FOR REFERENCE

Warning RISK OF ELECTRIC SHOCK

- Receptacle outlets used for powering Smart String Lights shall comply with all national and local electrical codes. Consult local electrician if unsure of compliance requirements.
- For use only on GFCI protected circuits.
- Do not submerge.
- Do not use in water.
- Do not use with extension cord near water or where water may accumulate.
- Keep lamps at least 16 feet from water.
- Keep plugs and receptacles dry.
- Avoid damage to the cords and lamp assemblies during installation. Periodically inspect the Smart String Lights for physical damage or other damage caused by outdoor exposure to the elements.
- Replace any damaged Smart String Light strings.
- Do not install in locations where Smart String Lights can be stepped on.
- Ensure Smart String Lights are unplugged from power during installation.
- Smart String Lights should be installed out of the reach of children. Do not allow children to play with them.
- UL recommends testing GFCI circuits and receptacles every month to ensure proper operation.
- Do not operate without bulb securely screwed in.

1

RISK OF FIRE

- Smart String Lights are designed to be mounted with their individual keyhole mounting feature.
- Do not mount Smart String Lights by using the main electrical cord or the individual drop cords.
- Smart String Lights are designed to have unlimited linkability by using their electrical plugs and receptacles.
- Do not mount Smart String Lights in any position where the bulb is facing up.
- Do not allow the LED lamp assemblies to be in contact with combustible materials. LED lamp assemblies should hang freely and not be susceptible to repetitive damage caused by environmental conditions such as wind, rain, and ice.
- Not intended for installation in ceilings, soffits, cabinets, attics, or other enclosed spaces.

WARNING

This product can expose you to chemicals including Pb, which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

3

Step 1: Initial Setup

- Carefully unpack Smart String Lights from the box.
- Before installing, plug the Smart String Lights into an outlet to ensure all lights work properly.

IMPORTANT! Unplug the Smart String Lights prior to mounting.

4

Step 2: Installing

Installing by Structure

Connect securely to structure at the beginning, middle (the sixth or seventh bulb holder), and end of each string light.

NOTE: Attachment hardware, such as hooks or nylon cables ties is not included.

5

Installing by Guide Wire

Attach ring at the back of every bulb holder to the guide wire using a S-hook or cable tie (not included).

6

Step 3: Plug In

Plug Smart String Lights into any standard outlet.

7

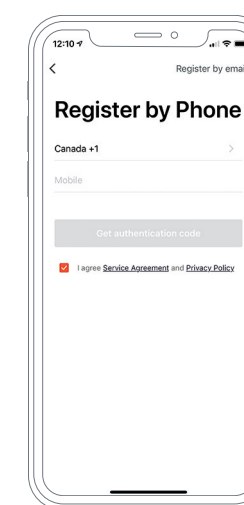

Step 4: Download App

Download the app from the App Store or Google Play.

8

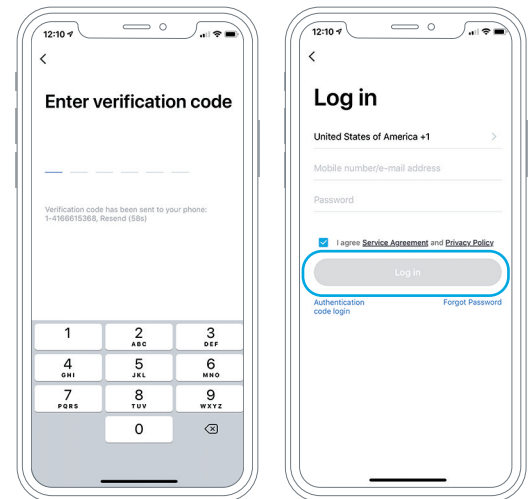

Step 5: Register

Enter your mobile phone number or email address.

9

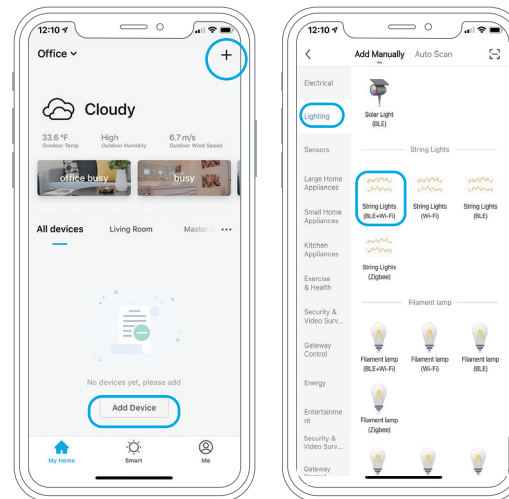

Step 6: Add Device

Enter the verification code and create a password.

Log into the app.

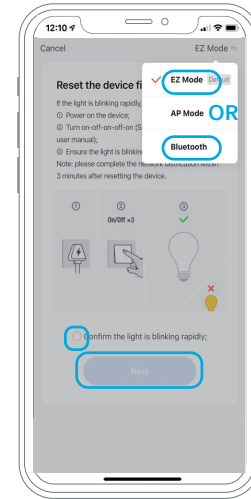

10

Select "Add Device" or click (+) at the top right corner of the Devices screen.

Choose "Smart String Light-Color" from the Device list.

11

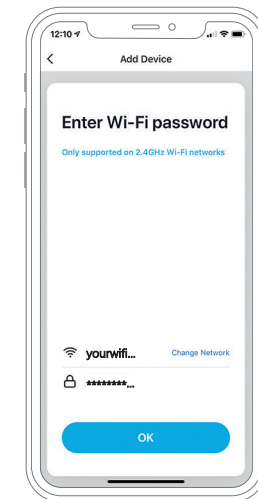

The initial setting requires selected to 2.4GHz Wi-Fi (EZ Mode) or Bluetooth and Hotspot (AP Mode) also available to control lights directly after the setting completed.

Hold the power button for 30 seconds until the bulb flashes rapidly, then press "Continue" on the Hvs Smart app.

12

Enter your Wi-Fi network and password.

The smart app will connect your device.

*Make sure you are in close proximity of router

13

Switch

ON/OFF Press to power Smart String Lights ON/OFF

14

Scenes

Hold "Pick 2" for 2 seconds to activate "Pick 2" color scene.

Select curated color scenes based on your mood.

Pick 2

Create custom light scene with 2 colors.

15

Troubleshooting

Cannot connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are problems with your internet connection. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again. Bluetooth improves Wi-Fi network to give better experience.

Setup is not working properly.

- Close all apps that are running in the background then re-open the Hvs smart app.
- Uninstall and reinstall the Hvs Smart app then repeat the setup process.

Smart String Lights are not responding to Hvs Smart app.

- Check if Smart String Lights are turned off. If yes, turn them on and wait until Smart Bulb reconnects with the Wi-Fi network automatically.
- Check if there are problems with your internet connection. If necessary, reset your wireless router and try again.

How many colors can I pick from?

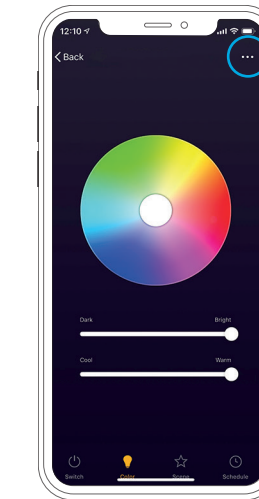

Smart String Lights use RGB LEDs, allowing you to choose from millions of colors per bulb. Using the Hvs Smart app on your smart device, you can choose the exact color(s) you want for your color sequence.

Connecting Devices

In order to connect multiple lights and control with the Hvs Smart app you are required to create a group.

16

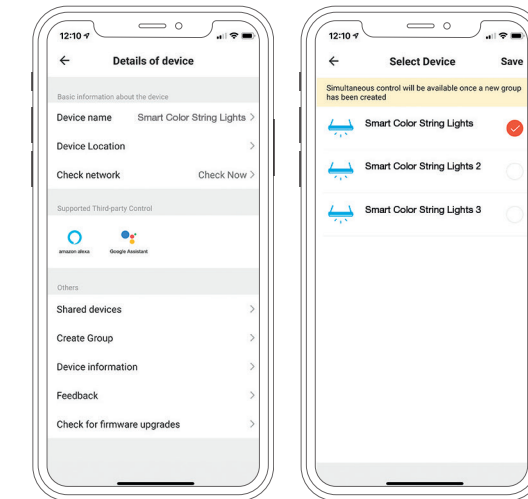

Creating a Group

Press the "Edit" button at the top right corner of your screen.

17

Adding Devices

Press "Create Group", select the devices you wish to be included and press "Save". You can now control your lights simultaneously.
