TROUBLESHOOTING

Cannot connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are problems with your internet connection. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again. Bluetooth improves Wi-Fi network to give better experience.

Setup is not working properly.

1. Close all apps that are running in the background then re-open the Hvs Smart app.
2. Uninstall and reinstall the Hvs Smart app then repeat the setup process.

Creating Group

1. Groups that have been created can be viewed on the "Home" page, and managed with hotkeys.
2. Open the group control panel as shown in 2.
3. Click "..." at the top right corner to configure or dismiss groups, as shown in Fig. 3.

Smart Features - Automation

Click "Add Smart" on the "Smart" page or "+" at the top right corner and select "Automation" to go to the smart configuration page, as shown in Fig. 3. Click "+" as shown in Fig. 3 to add multiple conditions or multiple actions.

Set Time Schedule

Set Smart Features-Automation-Schedule.
