SAFETY INFORMATION
IMPORTANT: READ ALL THE SAFETY INFORMATION AND INSTALLATION INSTRUCTIONS BEFORE INSTALLING OR SERVICING THIS PRODUCT. KEEP THIS MANUAL FOR REFERENCE.

Warning:
RISK OF ELECTRIC SHOCK
 • Sockets used to power smart string lights should comply with all national and local electrical codes. If you are unsure of compliance requirements, please consult your local electrician.

• Do not operate the bulbs without tightening string lights, making sure to unplug the smart string lights during installation to avoid damage to the power cord and lamp assembly during installation.

• Do not submerge when using on GFCI protection circuits.

• Do not use in water. Do not use extension cords or places where water may accumulate near water. Take care to keep the bulb at least 16 feet from the surface of the water. Keep the plug and socket dry.

• Do not install the smart light string in a position where you can step on it. Not be allowed for children to play smart string lights, should be installed out of reach of children.

• ETL recommends testing GFCI circuits and outlets monthly to ensure proper operation.

• Regularly check the smart string lights for physical damage or other damage caused by outdoor exposure to components, and replace any damaged smart string lights components in time.

RISK OF FIRES
 Smart String Lights are designed to be mounted with their individual keyhole mounting feature. Do not mount Smart String Lights by using the main electrical cord or the individual drop cords. Smart String Lights are designed to have limited linkability by using their electrical plugs and receptacles. Do not mount Smart String Lights in any position where the bulb is facing up. Do not allow the LED lamp assemblies to be in contact with combustible materials.

LED lamp assemblies should hang freely and not be susceptible to repetitive damage caused by environmental conditions such as wind, rain, and ice. Not intended for installation in ceilings, soffits, cabinets, attics, or other enclosed spaces.

FCC Notice:
 This device complies with Part 15 of the FCC Rules. Operation is subject to the two following conditions:
 1. This device must not cause harmful interference.
 2. This device must accept any interference received, including interference that may cause undesired operation.
 Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

CAUTION: Suitable for outdoor /indoor use only.
DO NOT IMMERSIVE IN WATER. DO NOT EXCEED RATED CAPACITY.

Schedule

Steps to set the time

Select the time to repeat the setting within a week. Define whether the set time is the beginning or the end of the work

Troubleshooting:

Cannot connect to your Wi-Fi network. Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are problems with your internet connection. If Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

Setup is not working properly.

- Close all apps that are running in the background then re-open the Hvs Smart app.
- Uninstall and reinstall the Hvs Smart smart app then repeat the setup process.

Smart String Lights are not responding to Hvs Smart App.

- Check if Smart String Lights are turned off. If yes, turn them on and wait until Smart Bulb reconnects with the Wi-Fi network automatically.
- Check if there are problems with your internet connection. If necessary, reset your wireless router and try again.
